

Looking for a
FUN book?
Do you do
Dewey?

Let's Play BINGO!

In 1876, Melvil Dewey invented a way to organize libraries. He created 10 classifications, each representing the 100s from 0-999. Each of these is broken down into 10 subgroups of 10s. We can continue to divide these groupings down, using decimals when necessary, to have a number for every idea, every book in the library.

560-569 Dinosaurs, Prehistoric Animals, Fossils	950-959 Asian & Middle Eastern Countries	750-759 Painting	000-009 Computers, Loch Ness, Bigfoot, UFOs, Aliens	910-919 Explorers, Atlases
