

Looking for a
FUN book?
Do you do
Dewey?

Let's Play BINGO!

In 1876, Melvil Dewey invented a way to organize libraries. He created 10 classifications, each representing the 100s from 0-999. Each of these is broken down into 10 subgroups of 10s. We can continue to divide these groupings down, using decimals when necessary, to have a number for every idea, every book in the library.

940-949 Knights, Castles, World War I & II, European Countries	000-009 Computers, Loch Ness, Bigfoot, UFOs, Aliens	630-639 Farming, Farm Animals, Cats, Dogs, Pets, Horses	310-319 Almanacs	150-159 Optical Illusions, Feelings
